Cookies policy

Cookies are small strings that are saved locally in the user's browser to exchange information with the website.

These strings are used for different features including session analysis, storing information to improve the browsing experience or site functionality.

Cookies that are saved during browsing may come from the site itself (owners) or be installed by tools or objects contained within the website (third-party).

The general provision of the Authority for the protection of privacy (GU No. 126 of 3 June 2014) defines two types of cookies:

- Technical cookies - Used for the sole purpose of allowing the transmission of a communication, to complete a service requested by the user or to perform statistical research.
- Analysis cookies - Employees to gather information on the use of website users.

This website does not use any profiling cookies.

1. Types of cookies

These are the cookies which are used by OMR S.r.l. within the omr-srl.com website

| Category | Type | Finality |
|------------|--------|---|
| Technicals | Owners | <p>These cookies allow the proper functioning of the website and the user's browsing preferences including language or access to restricted areas.</p> <p>The user can delete or disable them, compromising, however, some features of the website. In this case, refer to the "Disabling cookies" section of this statement.</p> |

| | | |
|-----------|------------------|---|
| Analysies | By third parties | <p>Google Analytics is a free tool by Google that allows you to gather information on the use and browsing experience of users on the website.</p> <p>We use this information to optimize the content and elements of the website without collecting any personal information from users whose IP address data is recorded anonymously.</p> <p>Place of processing: USA</p> <p>Privacy information: https://policies.google.com/privacy?hl=it&gl=it</p> |
|-----------|------------------|---|

2. Disable cookies

Google Analytics cookies can be disabled through the appropriate additional component installed in the browser or by clicking on the following link.

Browsers are usually enabled to accept cookies from websites. However, it is possible to control and disable cookies through the settings of each browser. This restriction may compromise some features of this website.

Alternatively, you can deactivate the receipt of cookies from specific suppliers through the tool available on the website <http://www.youronlinechoices.com/>

Below are the procedures to disable cookies from the most common browsers.

Google Chrome

- Open Chrome on your PC.
- Click on More than Settings on the top right.
- At the bottom click on Advanced.
- Click on Content settings in the "Privacy and security" section.
- Click on Cookie.
- From here it's possible:

- Activate cookies: activate the option next to "Blocked".
- Disable cookies: disable the Allow sites to save and read cookie data option.

For more information, the dedicated page is available:

<https://support.google.com/accounts/answer/61416>

Mozilla Firefox

- Click the Menu button and select Preferences.
- Select the Privacy and security panel and move to the History section.
- Under History settings: select use custom settings.
- To activate cookies, mark Accept cookies from websites; to turn them off, remove the mark from the item.
- Choose how long cookies can remain stored:
- Store them up:
 - or when they expire: cookies will be removed when they reach the expiry date (date set by the site that sends cookies).
 - or when Firefox closes: cookies stored on your computer will be removed when Firefox is closed.
- Close the about: preferences page. Any changes made will be automatically saved.

For more information, the dedicated page is available:

<https://support.mozilla.org/it/kb/Attivare%20e%20disattivare%20i%20cookie>

Internet Explorer

- In Internet Explorer, select the Tools button and then Internet Options.
- Select the Privacy tab and then in Settings move the slider up to block all cookies or down to allow all cookies, then select OK.

For more information, the dedicated page is available:

<https://support.microsoft.com/it-it/help/17442/>

Safari

- Open the Safari browser and locate the Preferences menu
- Select the Privacy item and set the desired preference for enabling or storing cookies.

For more information, the dedicated page is available

<https://support.apple.com/kb/ph21411>

Opera

- Open the Opera browser and locate the Preferences menu
- Select the item Advanced and then Cookie
- Set the desired preferences for complete blocking or partial retention of cookies.

For more information, the dedicated page is available:
